

Addendum 1 - Answer to question for the RFQ
March 10, 2025

Cherokee Academic Construction Project H59-6329-JM

There seems to be confusion about the location of the Project Office. Clearly list the Project Office location and detailed address in your Responses to Criteria, Letter of Interest. If the location of the Project Office is different from your basic company address in Responses to Criteria A. Letter of Interest 1), list the full address & zip code of the project office. We are looking for the address for the location of the Project Office on where the work will be handled out of, if any office other than the company address.
